

SHEPPARTON EDUCATION PLAN

SECONDARY EDUCATION
COMMUNITY ENGAGEMENT REPORT
December 2017

The Victorian Government is developing a long-term plan to transform education in Shepparton and Mooroopna.

The first stage of the Shepparton Education Plan is focusing on secondary education and will provide every student with more options and opportunities to improve educational outcomes. It will guide our young people as they transition through each stage of their education, equip teachers with additional training and resources, and improve school facilities.

COMMUNITY FEEDBACK

Our first step towards writing the plan was to talk to you, the local community.

In June 2017, we asked you what are the key challenges facing young people in Shepparton and Mooroopna, and how can we improve education outcomes.

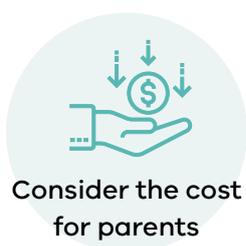

We heard there is a need for real change, especially at the secondary school level.

From your feedback, we developed transformational options for change and in September and October 2017 we asked for your feedback. Over four weeks we hosted a series of pop-up information sessions, community workshops and an online survey. We heard from more than 300 people, and analysed almost 2,000 individual comments. This factsheet provides a summary of what we heard from the community.

To learn about the proposed options for secondary education, visit www.engage.vic.gov.au/SheppartonEducationPlan and select the 'Phase 2: Secondary schools' tab.
