

Comment

Hi

Thank you for providing an update on the fees.

However, it would be a great benefit to the engineering community to provide clarity on all fees/costs.

1. Fees associated with assessments of qualifications should be clearly highlighted. These fees could be as high as \$500 thus doubling the upfront cost to register. The total upfront cost to register is likely to be in the order of \$900-\$1000.

2. Please provide further clarity about ongoing assessment every three years. Do engineers need to pay assessment entities. In my opinion this is very important. There will be a clear advantage for engineers not requiring to pay for ongoing assessment, but a clear disadvantage for assessment entities. - Members are likely to leave.

Thanks
