Comments: We are a landscape install and garden maintenance business, operating in the general area of Ivanhoe, Heidelberg and surrounding suburbs. For all of our 30+ years in working in this area we have been most appreciative customers of Bulleen Art & Garden for our landscaping materials, garden supplies and all associated areas. We have come to admire this successful business for its emphasis on and influence in sustainable development everywhere. And for their generous input and open arms towards the creative arts and local community. Their threatened disappearance due to the proposed build of the East Link Freeway will not only leave our area without a trusted supplier. But also deal a devastating blow to our local and wider community and social environment. We implore you to spend time and effort on the current plans to avoid at all cost the disappearance of the remarkable and much loved landmark that is BAAG.
