Fingerboards Mineral Sands Project Inquiry and Advisory  
Committee - EES

# 209

---

**Request to be heard?:** No

**Full Name:** Jess Markum

**Organisation:**

**Affected property:** Possibility of Contaminated water supply, and don't want the food bowl touched

**Attachment 1:**

**Attachment 2:**

**Attachment 3:**

**Comments:** I am very against the Kalbar mine, due to the possible environment effects, as well as the detriment to the food bowl in the area and the near by water supply. I am also concerned about the local flora and fauna in the general vicinity and the effects on them and am doubtful that many precautions will be taken to ensure their protection.
