My submission:

I have mould between the shower, the glass has mould between the panes of glass. It can't be cleaned away with mould remover. The shower screens need to be replaced, but the landlord won't replace it. This is a health issue, so they should be required to address it. The mould was there when we moved in, so it should not be my responsibility. I have a compromised immune system, so this is a real issue that needs to be addressed!
