Attachment 3:

Comments: As the Acting Principal of St Martin of Tours Primary School, I am concerned about the effects that the earth movement and vibrations of the construction of the north east link on our school buildings. We are particularly concerned about the works around the corner of Lower Plenty Road and Greensborough Road. We request that a survey of our existing buildings be carried out to establish a base line so any structural damage incurred because of construction is able to be properly assessed. Regards, Megan Williams Acting Principal St Martin of Tours Primary School 2-12 Silk Street Rosanna
