Primary interests:

- Protection and conservation of wildlife and habitat
- Hunting of wildlife
- Management and control of wildlife causing problems or damage

Comment

Our beautiful and unique wildlife are dying due to hunting both private and commercial, fires, loss of habitat. These are what make Australia amazing and recognised worldwide. We need to leave something for future generations instead of bending to the chase of profit before our unique animals disappear. What's happening to our Kangaroos is especially horrific every night hundreds gunned down and killed cruelty. Young bashed to death or left to die slow deaths. Roo's limbs cut off whilst still alive. Others dying in agony from missed shots. This government needs to act or be judged harsley by future generations.
