Submission for Bellarine Peninsula Planning Policy - Have Your Say

Strategic Infrastructure

Encourage more visitors from Melbourne to Queenscliff (and less road traffic) by using the current ferry from Melbourne to Portarlington and extending to Queenscliff.

Develop a bike trail from Portarlington to Queenscliff, and a coastal trail via Indented Head, St Leonard. This could connect into the Drysdale to Queenscliff bike trail and encourage safe local commutes, visitors from the Melbourne/Portarlington ferry and tourists.

Environment and Biodiversity - increase habitat for species and recreate biodiversity in flora and soil

Propose purchasing disused farmland or using part zoned residential land to redevelop into nature reserves. Use the Department of Environment, Land, Water and Planning for planning/purchasing and volunteers to plant/weed to involve the local community.
