Dear Koel

Thank you for the opportunity to undertake an independent peer review of the consultation summary report and feedback data analysis for the draft Greater Gariwerd Landscape Management Plan.

I have reviewed the *Consultation Report: draft Greater Gariwerd Landscape Management Plan (Draft 2)*, which was produced and updated by Parks Victoria and supplied to me on 30 July 2021. I am satisfied that this version of the report appropriately and fairly summarises the feedback received from the 855 survey respondents and 1705 submitters. It was not part of my brief to review the engagement process, survey design or management plan content.

Please note that any further changes to the consultation report may render this assessment void.

Yours sincerely
