

I wish to object the the Yumbah application at Dutton Way.

I object to the project being approved on the grounds that this area is zoned Rural Living.

This zoning specifically forbids, by law, "intensive animal husbandry". Yumbahs business is an industrial complex growing millions of abalone.

Further, the zone makes residential living the priority over other land uses. The carelessly quoted 'beach shacks' are HOMES, family homes, someone's castle they have worked hard to own and are proud of. The project will be an enormous eyesaw and in no way will aline with what a rural living zone is designed to be and will directly effect the homes and metal health of the home owners.

I urge you to reject this application.

Kind regards
