Attn: ██████████

**Additional Comments on the draft Draft Bellarine Peninsula Statement of Planning Policy (SPP).**

This document is additional to my Short Form Submission.

I have read the Submission of the Ocean Grove Community Association (OGCA) [of which I am a longstanding member], and agree with and fully endorse it.

I note that the OGCA, along with many other community organisations, has been actively involved in every phase of the consultations and development of the draft SPP, including the vision and objectives. I commend the DELWP, the Government and our local member, Lisa Neville on the open, transparent and extensive process to ascertain a wide range of views, especially from members of the local community.

I urge the government as soon as possible to finalise the SPP in accordance with the draft, and resist any further efforts by landowners and developers with vested interests to extend the Ocean Grove boundaries beyond those shown in the draft SPP.
