

## Wildlife Act Review

### Submission Comment 185:

Contributor: Individual

#### Primary interests:

- Protection and conservation of wildlife and habitat

#### Comment

Keep the protection of our wildlife and their habitats in the forefront of all decisions. Protect what we have, and increase and improve areas of degradation for the purpose of increasing areas available for our wildlife. This is imperative for our threatened wildlife, and for us. We must look after the world, and then the world will look after us.
