Details of Submission - How does this application directly affect you?

Previously involved in the fishing industry based in Portland, currently a regular visitor and user of Dutton way beaches.

The Yumbah Project is not in keeping with the Rural Living zoning intentions due to its industrial scale and commercial nature of operation.

The proposal clearly adversely affects the amenity of the immediate area and of surrounding land uses.

Serious concerns regarding waste water, sea water usage and the impact this will have on the local ecology.

Request a hydrological survey be completed for the site by an independent body

Request Director guaranteed to remediate the land in the event of financial failure should the project go ahead.
