Comments: Dear Inquiry and Advisory Committee members, I am writing in response to the EES conducted by Kalbar for the Fingerboards Mineral Sands Mine Project. I have friends who live in the area and know how much this will affect them and how distressing this is. I care about the environment and this is of great concern to me. Below are the reasons I do not believe the Fingerboards Mineral Sands Mine Project should go ahead at Glenaladale, East Gippsland:

- Destruction of land and country
- The effect on the environment and wildlife and the Mitchell River
- Contribution to climate change
- The significance of the land and cultural importance to Indigenous people

Thank you for the opportunity to make this submission. Yours sincerely, Rosie Neate
