Subject: My submission on minimum standards

[REDACTED]

My submission:

Minimum Energy Efficiency - too many rental homes have poor insulation and glazing and inadequate heating/cooling provision. This means tenants have to pump heaters/coolers to maintain an optimal temperature and it all ups CO2 emissions plus tenants' energy bills.

This submission to the Victorian Government consultation on the RTA Regulatory Impact Statement was sent via Tenants Victoria's website. It represents the views of the author only and does not represent the views of Tenants Victoria.
