How do you think we should improve the FFG Act?	<p>The proposed changes to the Act are thorough going and impressive in their depth. The Review is to be commended on the thoroughness of its investigations and as a result we are most happy to see the decisions of the review come into being.</p> <p>We do have three issues that we believe to be critical:</p> <p>firstly, the need for regular reporting, monitoring and review are vital to the success of the new FFGAct in its role of conserving Victoria's biodiversity,</p> <p>secondly, the urgent need for adequate funding for Parks Victoria to provide proper management in all aspects of its Parks and Reserves</p> <p>and thirdly, the need for improved skills and knowledge within local governments in the management of biodiversity and the need to factor environmental concerns into early stages of their planning processes.</p>
