Please update the act to reflect community care and love for wildlife. Communities have real emotional bonds with wildlife and it is pushing people to breaking point fearing for their wildlife and having to fight to protect them.

Developments need to make sure wildlife are considered and there should be sufficient habitat and corridors to ensure our native animals aren't extirpated as the city expands.

I want to see an end to all killing of wildlife and a promotion of non lethal alternatives if wildlife are causing issues. We need the government to lead the charge in helping people live harmoniously with wildlife rather than approving culls.
