Subject: My submission on energy efficiency issues for renters

From: Dick Joshua [REDACTED]
Subject: My submission on energy efficiency issues for renters My postcode: [REDACTED]

My submission:

Tenants spend a lot of money over winter months (resources) heating houses that are not energy efficient. As a move towards addressing Climate change, every home in Victoria (within reasonably possible thresholds) should be energy efficient. This will reduce overall CO2 emission in Victoria, and provide some relief to the occupants. Same applied for cooling during summer. Some houses are unsafe for children and elderly as they are not even fitted with cooling mechanisms and landlords may be reluctant to address these concerns.

Please help. Make a difference.
