Comments: Hi, I am Mehmet Aydin, I am writing because I am concerned about the impact the development of the North East Link will have on my picture framing business. I also want to support the submission made by the Bulleen Industrial Zone Group Inc. Ours is a family business employing all 4 members of my family. We moved to our current address on Manningham Road during April last year. We moved there from Campbellfield. We needed to move because culturally Campbellfield residents have no need for picture framing. We needed to go somewhere where we could easily be accessed by the public, and improve our business. To spend roughly one month, and significant sums of money to move, the move is paying off. Our business is expanding with customers accessing us daily. I understand that business is supposed to benefit from the building of this road, yet many people in the Bulleen Industrial area will lose their jobs, and many businesses will cease. So, how is this a benefit. In my case, our current site was difficult to find. It is high exposure, and large enough for retail and factory. There are not many sites similar to this in Melbourne, so what are we to do. Could you reconsider the plans please, perhaps re routing to avoid the Bulleen Industrial Zone. I would really appreciate your favourable consideration of my submission. Thank you, Mehmet
