Primary interests:

- Protection and conservation of wildlife and habitat
- Rehabilitation of sick, injured and orphaned wildlife
- Wildlife welfare

Comment

I feel that I have more than three concerns as listed above . Also including tougher penalties to those who harm wildlife. We need to protect our wildlife and create wildlife corridors and bridges . Our Ecco system relies on healthy habitats. And less farming and destruction of habitats needs to be addressed . There needs to be more protection and better ways of managing feral species such as DNA sterilisation methods targeted at specific species that are destroying wildlife rather than barbaric methods of poisoning or shooting. We need more protection against logging, mining and land clearing and concentrate on conservation, replanting . Creating more habitats will also help with climate change as land clearing causes dry belts that protect wet forests. It is crucial that we protect our wildlife .More funding is needed for conservation, all wild life shelters and careers and rehabilitation.
