Attachment 3:

Comments: Upon retirement in 2014 I purchased a marina berth for \$60,000 and have since paid \$3,307.45 each year in rates to retain the berth. I still have no boat but I have been happy to pay the rates each year in anticipation of one day owning a boat. I am devastated to learn of this proposed tram bridge. It will devalue my berth and limit my options as to the size and type of boat I can purchase. I think I would have much trouble now in trying to on-sell the berth.
