#### Primary interests:

- Protection and conservation of wildlife and habitat

#### Comment

Across the three levels of government affecting Victoria protecting indigenous vegetation and indigenous wildlife should a priority responsibility both for protecting our environmental biodiversity and the well-being of humans. In many cases at the local and state levels, there is the legislation, but enforcement is For that reason an independent regulator should be established to enforce the Victorian Wildlife Act and Council Planning with stronger penalties for offences such as not just issuing retrospective permits, thus covering up the misdemeanors.
