

## Wildlife Act Review

### Submission Comment 189:

Contributor: Individual – Linda Allen

#### Primary interests:

- Protection and conservation of wildlife and habitat

#### Comment

More needs to be done to ensure that our unique Australian wildlife is protected from domestic cats that are allowed to roam freely on the streets, killing and maiming all forms of wildlife from birds to skinks and frogs. In my city council cat owners merely get a warning when their car is caught whilst out in the street; this is not enough of a deterrent for car owners, Our wildlife has no hope of being seen by the next generation if we do not do make stricter laws to protect it
