Comments: As a regular user of the Main Yarra Trail, and the outdoor spaces that abut the Yarra River, from Greensborough to Clifton Hill, I am acutely aware of the need to preserve this environment for current and future enjoyment in as a natural state as is possible. This green corridor also provides a habitat to foster the regeneration of native flora and fauna. What I would also like to see is access provided to the Southern side of the Yarra River from the northern bank, via the two proposed foot bridges. This would reduce the reliance on and overuse of the current Main Yarra Trail, and provide opportunities for more residents to appreciate the area, from both sides of the river. It would be great to be able to provide a walking trail loop from Heidelberg up one side of the river and back down the other side of the river, crossing part of the land occupied by the Yarra Valley Country club.
