Comments: To whom it may concern, I strongly oppose the proposal for a mine on Gunai Kurnai land; our sacred East Gippsland. The impact this mine will have on the eco system of the area will be irreversible and devastating. The Mitchell River will never be the same again if this mine goes ahead. I grew up on this land and, as an adult, constantly marvel at it's beauty and completeness; an area of Australia like no other. Don't destroy it by giving approval to this mine. Sincerely, Dr Megan Burslem
