Subject: Kalbar new licence application
Date: Tuesday, 13 July 2021 11:15:04 PM

[REDACTED]

Hello,

Could you please forward this email to the Chair for review due to interactions I have received from concerned community members regarding Morris' licence application revelation.

I was dismayed today to hear Mr Morris state Kalbar's new mining licence application has been accepted by ERR with a consultation period commencing before the IAC Panel will have even delivered their report to the Minister.

This was a smack in the face for the community already mentally struggling with the complexity of this EES process.

I feel ERR is enabling the undermining of this EES process by Kalbar and their legal team leaving many now suspicious of political interference.

I request, for the sake of transparency, that ERR be made to promptly explain to the community what this means in view of an EES in process and would there be a referral for another EES?

Regards

Tracey
