Subject: Giant Burrowing Frog calls confirmed from Fingerboards
Date: Monday, 12 July 2021 11:43:06 AM

[REDACTED]

Dear IAC, thank you for the opportunity to present my submission to the panel hearing on 20 May 2021 (submitter 167, tabled documents 387 and 388). During my presentation the Panel asked me to inform them of any updates in regards to my monitoring of the Giant Burrowing Frog (*Heleioporus australiacus*) in the Fingerboards area.

This email is to let the IAC panel know that I have confirmed *Heleioporus australiacus* call activity from my recordings on 06, 07 and 08 April 2021 at one of my monitoring sites on private land in the Fingerboards area. Please refer to the Atlas of Living Australia sighting [record](#) for more details about this.

If you would like more information please reply to this email.

regards, Brendan Casey
