Comments: My name is Richard. I am a resident at Yarra's Edge. The Fishermans Bend draft framework proposes a tram bridge over the Yarra River at Yarra's Edge. My partner and I have not been in the Yarra's Edge area long but we can empathise with the concerns raised by the YE community. I am opposed this bridge for the following reasons; - Loss of Lifestyle - Devaluation of properties - Traffic - Noise and visual pollution - Wildlife - Environment - Loss of community We do understand the cities need for expansion but are opposed to a solution that effects the above points. Thank you for the opportunity to respond to the draft framework.
