Comments: to build a true Ring Road, like all the ring roads around the world, has to be an orbital road around the city. Option A does not complete a Ring Road. It is blatantly obvious that eventually there will be a need for that. Option A was chosen because deemed to be the shortest and CHEAPEST route at 7 billions....we have already reached an estimate of 15 billions and counting. There has to be an independent assessment as to why this route is Still viable compered to the other Options.
