Subject: My submission on energy efficiency issues for renters

From: Margaret Byron [REDACTED]
Subject: My submission on energy efficiency issues for renters My postcode [REDACTED]

My submission:

Energy efficiency measures are a very important part of providing affordable and safe housing, particularly now with our increasingly extreme weather patterns. Minimum rental standards should include, as soon as possible and not delayed for years::

- Current energy efficiency processes.
- Effective cooling and protection from heat during hot weather.
- Window coverings to protect from effects of hot weather.
- Modifications to install draught-proofing, put in heavy curtains or improve thermal comfort.
