

## Wildlife Act Review

### Submission Comment 111:

Contributor: Individual

#### Primary interests:

- Protection and conservation of wildlife and habitat

#### Comment

I'd like to see increased protections for wildlife habitat and for wildlife including high penalties and jail for persons purposefully destroying habitat or injuring and killing animals. Better protections for key species eg koala including listing as endangered. Better protections for all possums in metro areas. Restrictions on driving through national parks during dawn and dusk and speed restrictions during times of day/ breeding seasons.
