How do you think we should improve the FFG Act?	<p>I understand the FFG Act 1988 is under review and input is being sought. I scanned the document and the consultation paper seeking some reference to Soil Health. Given that soil is foundational for all living organisms, and in itself hosts the largest populations & diversity of organisms, why is this essential component not included in any of the Act? Please notify me by return email or to discuss on [REDACTED]</p> <p>Thanks for this opportunity, [REDACTED]</p>
