Get involved with our workshops online

Couldn't join our February or March workshops but still want to get involved?

Join the conversation online

We hosted workshops on 27 February and 6 March to ask communities for comments and ideas about where they live. Thanks to all that attended!

Now that the workshops are over, we've continued the conversation online. You can see what we heard from the people in the room, and add any extra comments you want us to consider.

There are three workshop streams you can view or contribute to:

- **Urban Design** - Help us better understand how you travel around your local area, how you use community spaces like parks and what you like about the look and feel of where you live.
- **Walking and Cycling** - Help us plan a better walking and cycling network for all kinds of walkers and cyclists.
- **Your Environment** - Let us know more about the environment you live in, including traffic, noise, air quality, landscape, flora and fauna. What do you value, what are your concerns, what could be improved.
Get involved online at jointheconversation.northeastlink.vic.gov.au

Online workshops close on Friday 30 March.

**Upcoming workshops**

Our community workshops will continue after Easter. These sessions will help us to have in-depth conversations with communities about specific design challenges and opportunities. We’ll send an email alert to you at this address when registration for Series #2 workshops open.

For more information visit our community workshops page.
