

Wildlife Act Review

Submission Comment 194:

Contributor: Individual

Primary interests:

- Rehabilitation of sick, injured and orphaned wildlife
- Hunting of wildlife
- Management and control of wildlife causing problems or damage

Comment

1. Kangaroos should not be culled, nor classified as pests. They are our so-called national emblem. They have been here longer than we have, we have much to learn from them.
2. I would like all animals to be cared for, rehabilitated and released back into the wild, where they should exist harmoniously in nature.
3. Ducks should not be hunted or shot. I fail to comprehend why this antiquated colonial recreation or hobby or sport or leisure activity can still exist lawfully.
