

#### Education

I'm not sure where education fits within this but speak with any parent in Ocean Grove and this is our biggest concern.

The population and demographic of Ocean Grove requires a secondary school. We currently have a year 7-8 high school only which accommodates the whole Bellarine.

Ocean Grove teenagers want and deserve to be able to school in their own town - to make friends with other local kids and then go to after school activities from their local School.

Planning for education for both primary schools and high school is seriously lacking on the Bellarine and especially in Ocean Grove. There seems to be zero discussion about this and it's really frustrating and disappointing for parents.

I feel this needs to be explored further and discussed with local parents.

#### SHELL ROAD/GRUBB ROAD INTERSECTION

Something needs to be done here urgently. There is no way for children to cross here safely on their walk to school and the traffic is getting out of control.

Overall the plan is great but look forward to seeing some specific planned actions.
