Dear Huw,

**Re: Notice To Supply Further Information for Works Approval Application
No. 1003382 Drouin Wastewater Treatment Plant**

Please find enclosed information to address all requests set out in the Notice to Supply Further Information dated 15 March 2019. This includes the following:

- Short-form report addressing odour modelling of the proposed MBR plant and lagoon treatment system
- Short-form report addressing questions around the operating capacity and capability of the proposed MBR plant and lagoon treatment system
- Short-form report addressing questions around discharge to surface waters and related environmental considerations

We look forward to discussing the outcomes of your assessments of this information in the near future.

Yours sincerely,

Chris Wendt
MANAGER WASTEWATER TREATMENT & ENVIRONMENT
