Subject: My submission on family violence protections for renters

Subject: My submission on family violence protections for renters

My postcode: [REDACTED]

My submission:

Woman fleeing Family Violence need more protection. [REDACTED]

[REDACTED], there was a "serious security issue". [REDACTED]

This security issue was a "serious matter", and it shows the Authorities that more has to be done to protect women fleeing Family Violence. [REDACTED]

[REDACTED] What seems to be outstanding is that the Family Violence was never properly noted with the Authorities so protections and more flexibility can be in place to support the female tenant. There should be a rule, that no one else is allowed to have a key except for the Agent and Tenant occupant on the Lease. There should be a 'Key Register', and the Key should not be a 'standard' Key, that is able to be cut at a bookmaker but rather a 'coded' Key which only a selected locksmith can engineer/make, when you produce your ID, and the code is the entered on a Key Register.
