How do you think we should improve the FFG Act?	<p>The Flora and Fauna Guarantee act is a good piece of legislation but to be truly effective it needs enforceable protections without exceptions. To do this it needs the following changes;</p> <ol style="list-style-type: none">1. no government or industry exemptions from the protections for Flora and Fauna. The word 'guarantee' doesn't mean much if their are endless caveats.2. ministerial power to issue "stop and protect" if species or habitats under immediate threat3. Proper monitoring and enforcement with significant penalties4. Mandated action on species on the endangered or vulnerable list - targets and plans for protection and recovery, not just a listing5. Community power to act and start legal proceedings to protect threatened species <p>Thank you for considering my submission</p>
