Comments: To whom it may concern, I am writing in response to the Yarra River Bulleen - Precinct Land Use Framework Plan. We are already experiencing a lot of noise due to the existing traffic. I understand that just opposite to my property, it is proposed to build a sports centre which will significantly increase the traffic and noise. Also there is plan to duplicate Templestowe Road. My concern is the extra noise that will happen due to this development will adversely impact peace at my place. What is the plan for the property owners in this area?
