**Comments:** I have been a resident at 2 Avon st for approximately 35 years. My home is on the corner of Bulleen rd and Avon st. I feel my property will be severely impacted by the traffic noise of vehicles entering and exiting the tunnel. We request that you consider soundproofing our windows along the front of our property to reduce the noise impact. As this will have an impact on our quality of living. We are in support of the creation of a cul de sac in Avon st as this will lessen the lights from the traffic beaming in to our home.
