Subject RE: WGT-Project IAC Requests for Info - Item 11 - Moonee Ponds Creek Viaduct Images

1 attachment

Dynon Road Connection over MP Ck - Misleading Image from WDA - Doc No160 Pt4 2nd image.pdf

Hello Greta,

Thank you for your response - Yes, I'll email the WGTP team for this info.

Also, I must apologise for two items from yesterday's presentation from Fran and I for the Kensington Association;

1.

I was asked by one of the members of the IAC Panel yesterday a question - about if the Kensington Association had contacted the City of Melbourne and Melbourne Water, about our concept of the Linear Park along the Moonee Ponds Creek.

I gave a very short answer that was not accurate.

Please convey to the IAC panel, that I (on behalf of the Kens Assoc), have discussed the concept of a linear park along the Moonee Ponds Creek with;

Julie Francis - Project Manager for Moonee Ponds Creek  
Collaboration | Melbourne Water  
Rohan Leppert - Councillor for City of Melbourne  
+ Peter Sammut - CEO, Western Distributor Authority  
Gary West - Transurban  
Roger Wilesmith - Senior Advisor to the Roads Minister (with Liz Evans from the WDA)

2.

One of the images I used in our presentation was misleading. This image was taken from the images submitted to the IAC (doc 160-4). The image from the WDA does not show a set of piers that are present in the EES mapbook.

Please convey this to the panel.

Regards,

Michael Ingram  
Kensington Association  
(representing the KA on the Community Liaison Group for the WGTP)
