Comments: The mineral sands will affect my family directly because I am [REDACTED] and work fulltime in my husbands business in Bairnsdale and the dust that will be created by the mine will stop me from being able to work in the area. My grand sons 2 yrs and 4 yrs also have [REDACTED] and live and go to day care in Bairnsdale and will also be directly affected by the dust caused by the mines. We moved to the area for better quality of life so why should we have to put up with this being jeopardised because some business men and government officials dont care. Its time to take care of the environment for our future generations. Do we really want our grandchildren/children to never see outside due to poor air quality.
