Comments: I feel it is an absolute disgrace that council has not looked closely at other directions that wouldn't effect the lifestyle and the investment of those who have invested in this beautiful area of inner Melbourne. In my opinion, council has not looked closely at other alternatives and has taken the easy way of extending the light rail to Fisherman's Bend, with absolutely no consideration of those people who have made substantial investments in this area. In my case, I only have a small investment in a marina berth but feel for those who have committed to an apartment so as to have their water vessel close by to enjoy.
