

Do you believe the proposed regulations will encourage investment in the onshore conventional petroleum sector in Victoria?

No

If not, what would you like to see improved?

I'd like to see no support for non-renewable energy.

Do you believe the proposed regulations adequately support community engagement and consultation?

No

If not, what would you like to see improved?

If the community was a thought, they wouldn't be doing it.

What are your views on the proposed consultation requirements with the community and affected stakeholders in relation to notice/submissions as part of application process for authorities (e.g. retention and production titles)?

Not good enough.

What are your views on the proposed consultation requirements with the community and affected stakeholders in relation to notice/submissions as part of Operation Plan?

notice and submission plans aren't clearly given to community members for their voices to be heard.

What are your views on the proposed consultation requirements with the community and affected stakeholders in relation to requirements for community engagement during the life of exploration, retention and production titles (as required in the title application)?

Not good enough

What are your views on the proposed consultation requirements with the community and affected stakeholders in relation to requirements to describe community engagement during operations (as required in the Operation Plan)?

Community engagement is never properly notified to the community. Therefore not enough of the community is heard. If you actually cared about what the community would say, this wouldnt be going ahead.

Do you have any suggested improvements to the proposed regulations?

Yes

If yes what are your suggested improvements to the proposed regulations?

Stop investing in non-renewable energy.

Do you believe the proposed regulations ensure that social, economic and environmental factors are adequately considered in decision-making for grant of Exploration, Retention and Production Titles?

No

If not, what would you like to see improved?

NO environmental, social or economic factors have been considered apart from the factors that positively impact those who couldnt give a damn about our environment.

Do you believe that the proposed regulations ensure that social, economic and environmental factors are adequately considered in decision-making for Operation Plan approval/variation and authority surrender?

No

If not, what would you like to see improved?

I'd like to see our environment actually taken seriously. We have goals to meet for renewable energy and yet you need to "explore" gas right under a MARINE NATIONAL PARK.

Are the proposed operation plan requirements to manage risks and impacts likely to be effective specifically as they relate to environment management plans, well operation management plans, code of practice of well operations management and rehabilitation plans?

No

If not, what would you like to see improved?

No long term impacts have been effectively looked at, especially in terms of climate, species and the actual environment. stop killing the planet.

Are the proposed information and reporting requirements likely to be effective specifically as they relate to progress against a work program?

No

If not, what would you like to see improved?

Probably wont be reported properly

Are the proposed information and reporting requirements likely to be effective specifically as they relate to rehabilitation undertaken and changes in liability?

No

If not, what would you like to see improved?

Not good enough,

Are the proposed information and reporting requirements likely to be effective specifically as they relate to results of monitoring undertaken?

No

If not, what would you like to see improved?

dont invest in non-renewable energy.

Are the proposed information and reporting requirements likely to be effective specifically as they relate to community engagement undertaken?

No

If not, what would you like to see improved?

dont invest in non-renewable energy.

Are the proposed information and reporting requirements likely to be effective specifically as they relate to operational activities?

No

If not, what would you like to see improved?

dont invest in non-renewable energy.

Are the proposed information and reporting requirements likely to be effective specifically as they relate to incidents?

No

If not, what would you like to see improved?

dont invest in non-renewable energy.

Are the proposed information and reporting requirements likely to be effective specifically as they relate to geological data?

No

If not, what would you like to see improved?

dont invest in non-renewable energy.

Do you believe that the new regulations will provide a clear and effective administrative framework that facilitates petroleum development activities?

No

If not, what would you like to see improved?

dont invest in non-renewable energy.

Would you like to comment on any other aspects of the proposed regulations?

No

If yes, please describe
