Comments: Hi, Bulleen Art & Garden Centre is simply the best nursery and garden centre in Melbourne and possibly Victoria. I have been in the horticultural industry for over 30 years, and my main qualification is in nursery management and production, so I know something of nurseries. I've been a customer of and also a supplier for Bulleen Art & Garden Centre (BAGC) for many years. As a garden consultant, BAGC is one of few nurseries or garden centres in Melbourne that I can recommend for top quality products, and the ONLY one that I know of that tests their soils and other yard products for various contaminants. The quality of the soil and other products they sell is beyond reproach and far above most other similar yards in Melbourne and Victoria. Landscapers and gardeners will be the poorer for BAGC closing or moving. There is much more I could say but there is no time. Please don't do this to them!
