Will changes improve function of regs?													
Reasons													
Implementation issue with proposed changes?	Yes												
Reasons	Yes, well connected big business finds it too easy to avoid compliance where it is not in their business interests: Challenges to compliance requirements should be appropriately publicized, be equally treated, be equally accessible and a robust community consultation process be given equal validity in any reassessment hearings.												
Guidelines – guidance or clarification needed?	Yes												
Details	Yes , the allowances for clearing for commercial or potentially commercial purposes need additional controls and restrictions as briefly detailed below												
Terms to include in guidelines glossary?	Unsure

Subscribe to e-newsletter?	Yes. Please send information updates to my email address												
Other comments	The exemptions are to generous in relation to oil/gas/mineral exploration and extraction and other commercial activities. In these situations the responsible organization should be required to pay for the conservation of equivalent areas of similar vegetation to that which is damaged, removed etc with a total prohibition on damage for commercial purposes to official Water Catchments, Old Growth Forest and endangered vegetation types.												
Written submission provided?	No
