Committee - EES

# 637

---

Request to be heard?: No

**Full Name:** Mike Simons

**Organisation:**

**Affected property:** [REDACTED]

**Attachment 1:**

**Attachment 2:**

**Attachment 3:**

**Comments:** To whom this may concern, this proposal creates a conflicting land use within a sensitive environment, such a proposal will create environmental and amenity impacts through water use, off-site contamination, noise and air quality. It would be better suited in an area which does not provide such opportunities for natural values, subsistence farming and maintaining Victoria's food bowl.
