<b>How do you think we should improve the FFG Act?</b>	<p>I believe that 'the environment' and 'natural capital' need legal recognition and be afforded protection under law.</p> <p>Damage to 'the environment' and destruction of 'natural capital' should be legal offences punishable under law and accountability for protection of 'environment' and 'natural capital' should be regulated and monitored by government across ministries- planning, agriculture, business, natural resources...</p> <p>If the revised Flora and Fauna Guarantee Act is not acted on so as to be effective (as is currently the case) then public cynicism will be the inevitable outcome and the aims of this revision will not be realised.</p>
