Primary interests:

- Protection and conservation of wildlife and habitat
- Wildlife welfare
- Protections for marine mammals

Comment

We are one of the few countries left that has wildlife. These are my FELLOW AUSTRALIANS. I hear time and again that people are more important than wildlife. I disagree and hold that we are all important. I Live in central Victoria and am amazed at the hatred of wildlife by the average person here. The birds are too loud, the bees are dangerous, the wallabies kangaroos, echidnas ruin their cars. I've heard a Connecting Country executive talk about their hatred of Kangaroos. Landcare executives talk about their hatred of wildlife as they mess up and eat their native landscaped plantings! It is not 'them or us"! it is "All of Us together". Environment shared, food shared, water accessible and shared. come on. We're better than this. Please keep me updated regarding the progress of this investigation.
