Will changes improve function of regs?	
Reasons	No, it has just made it easier for people to remove vegetation.
Implementation issue with proposed changes?	Yes
Reasons	The ecology of many of our waterways relies on the ecosystems provided by complex biodiversity. The proposed changes will change or destroy this biodiversity leading to erosion in many areas and causing ecosystem stress in others.
Guidelines – guidance or clarification needed?	Yes
Details	The guidelines need to take these problems into account and explain how they are going to be overcome.

Other comments	Your system for commenting on these changes is unwieldy and off putting and you should not be convinced of the community's acceptance of these changes if many people can't work their way through reading all your drafts, proposals and assessments. In many places it is unclear how to answer the questions and submit comments.
